On 21 - 26 January 2015 bidders asked the following questions:

1. Is it possible to receive all documents in English?
2. Will Customer accept the solid state amplifier offer?
3. Can the tenderer submit two bids for the amplifiers of various output power and various cooling systems?

Answers:

Ad. 1. In accordance to the Public Procurement Act of Poland, the legally binding language is Polish. Some documents may be send to/from tenderer in English, but in order to protect it's own legal interests the contractor should perform sworn/certified translation of relevant documents from Polish to his/her native language

Ad. 2. No, the full solid state amplifier does not fullfill the terms of the Object of the Contract. There is vacuum tube output stage demand.

Ad. 3. The variant offers are not acceptable. A tenderer should submit only one bid
